OBJECTIVE:

Aspiring for challenging level assignments in Data Science with a growth-oriented organization. Seeking a position to utilize my skill and ability in the IT industry and offices that offers security and personal growth while being resourceful, innovative and flexible. Industrious, self-motivated and cooperating where I can exercise my skill to the best and also learn new skills to enforce my knowledge base to mature as a thoroughbred professional

EXPERIENCE

Razorpay, Bengaluru —Associate

March 2020 - PRESENT

I have been working at Razorpay for the last 1 year. I have been an Associate at Razorpay, I cannot utilize the technical aspects required to be a data scientist but I can definitely use teamwork and professional learning to be a better team player.

PROJECTS

Google Merchandise Store analysis

This was one of the projects that was assigned to me recently. I had to find out whether a customer will transact with us or not. I used a linear model to find that out and the accuracy was around 0.9. That helped me visualize things in different ways.

House Price Prediction

In this project, I was given a data set and I was asked to see the pricing of different houses based on different variables or different features and find out which are the ones that attract more price. I used Ridge and Lasso Regression

CREDIT-CARD-SEGMENTATION

This project requires to develop a customer segmentation to define marketing strategy through machine learning technique.

EDUCATION

D.K.T.E, Kolhapur — *B.E(CSE)*

July 2015 - March 2020

60%

Saraswati International School,Valsad — *12th*

April 2014 - May 2015

66.40%

Saraswati International School,Valsad — *10th*

April 2012 - May 2013

7.4 CGPA

SKILLS

Python

Excel

SQL

Machine Learning
